

# ▼ Bucha Humanitarian Rehabilitation and Reconstruction Foundation

Children Rehabilitation Center Project Overview

August 2022

## Bucha Massacre

When Ukrainian army liberated Bucha area, the world was horrified to find out horrors and atrocities committed by the the Armed Forces of Russian Federation

# #BUCHAMASSACRE<sup>2</sup> IS MAKING HEADLINES

Global media — on Russian atrocities in Kyiv suburbs

Foundation was created in response to Bucha Massacre to help children in Bucha area

# We have operational and delivery ability in Ukraine

Because large international charities completely failed Ukraine, done nothing, despite collecting hundreds of millions of \$\$\$

**Figure 1: Operational presence**

Humanitarian providers inside Ukraine are depicted here by number of organizations and their average staff size.

Data sources: GDHO ([www.humanitarianoutcomes.org](http://www.humanitarianoutcomes.org)) and OCHA ([www.humanitarianresponse.info/en/operations/ukraine](http://www.humanitarianresponse.info/en/operations/ukraine))

Real charitable work in Ukraine is done by small NGOs like us

## London team

- Trustees
- Fundraising & Int. banking
- Reporting & Compliance
- HMRC tax registration

## Kyiv team

- On the ground operations
- Local government relationships
- Drivers & transport
- Warehousing
- Project monitoring
- Extensive local network (100+ people)

Our focus is on helping  
children who suffered  
psychological and physical  
trauma

As of now we've identified ~2600  
children in Bucha area, who have  
suffered severe consequences of  
Russian occupation

About 30% of them  
witnessed or experienced horrors  
that have left them psychologically  
traumatized and scarred for life

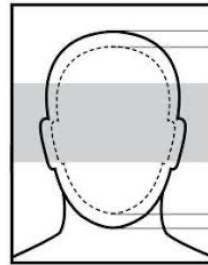

# Stories of Children from Bucha

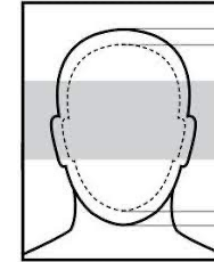

Ivan\*, 11:

Ivan had to witness how Russian soldiers were raping his mother for 11 hours after which she dies in front of him. His hair went grey, and he stopped talking. Deep trauma. Requires long term care

Anna\*, 13:

Anna was forced by Russian soldiers to witness how they killed ,skinned and nailed to the wall her favorite dog. Deep trauma. Requires long term care

**New York Times:**

Mykhailo Golub Retweeted  
**Cliff Levy** @cliffordle... · 3h ...  
 Horrific cases of sexual violence by Russian troops in Bucha and other places: a group of women and girls were imprisoned in a basement of a house for 25 days.  
 Nine of them are now pregnant, Ukraine's ombudswoman for human rights said.

## Foundation is working to build a new specialized Children Rehabilitation Center (“CRC”) for traumatized and disabled children

There are children traumatized psychologically and children who suffered life changing injuries (lost limbs, consequences of malnutrition, hypothermia, absence of medical help for prolonged period of time) and there are both

They all need specialized and long-term care

Ukraine has never experienced such level of war crimes and brutality against children, there are no facilities and no professionals at the moment to provide long term SPECIALIZED care for these children

Ukrainian doctors need both facilities and training for such specialized care

CRC will help both psychological and physical trauma and will include equipment, staff training, facilities and forest grounds

Children that  
suffered profound  
psychological  
trauma

Children that  
suffered life  
changing  
physical injuries

Center will provide long-term care and rehabilitation for children with  
psychologically trauma AND for children with physical injuries

## Target building for CRC

We've identified target location for the Center together with 2 hectares forest land

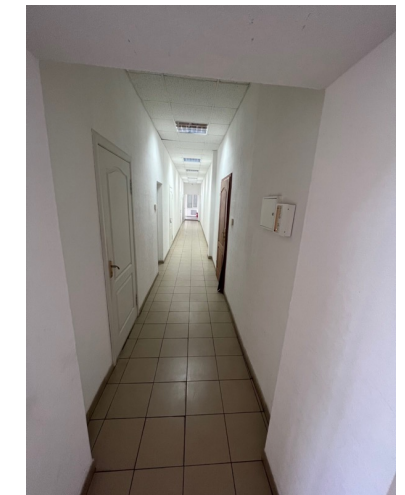

Building has 500m<sup>2</sup> area with layout and structure (corridor-cabinets) ideally suitable for CRC

Extra wign would be added

Space in the basement for aqua treatment and physio facilities

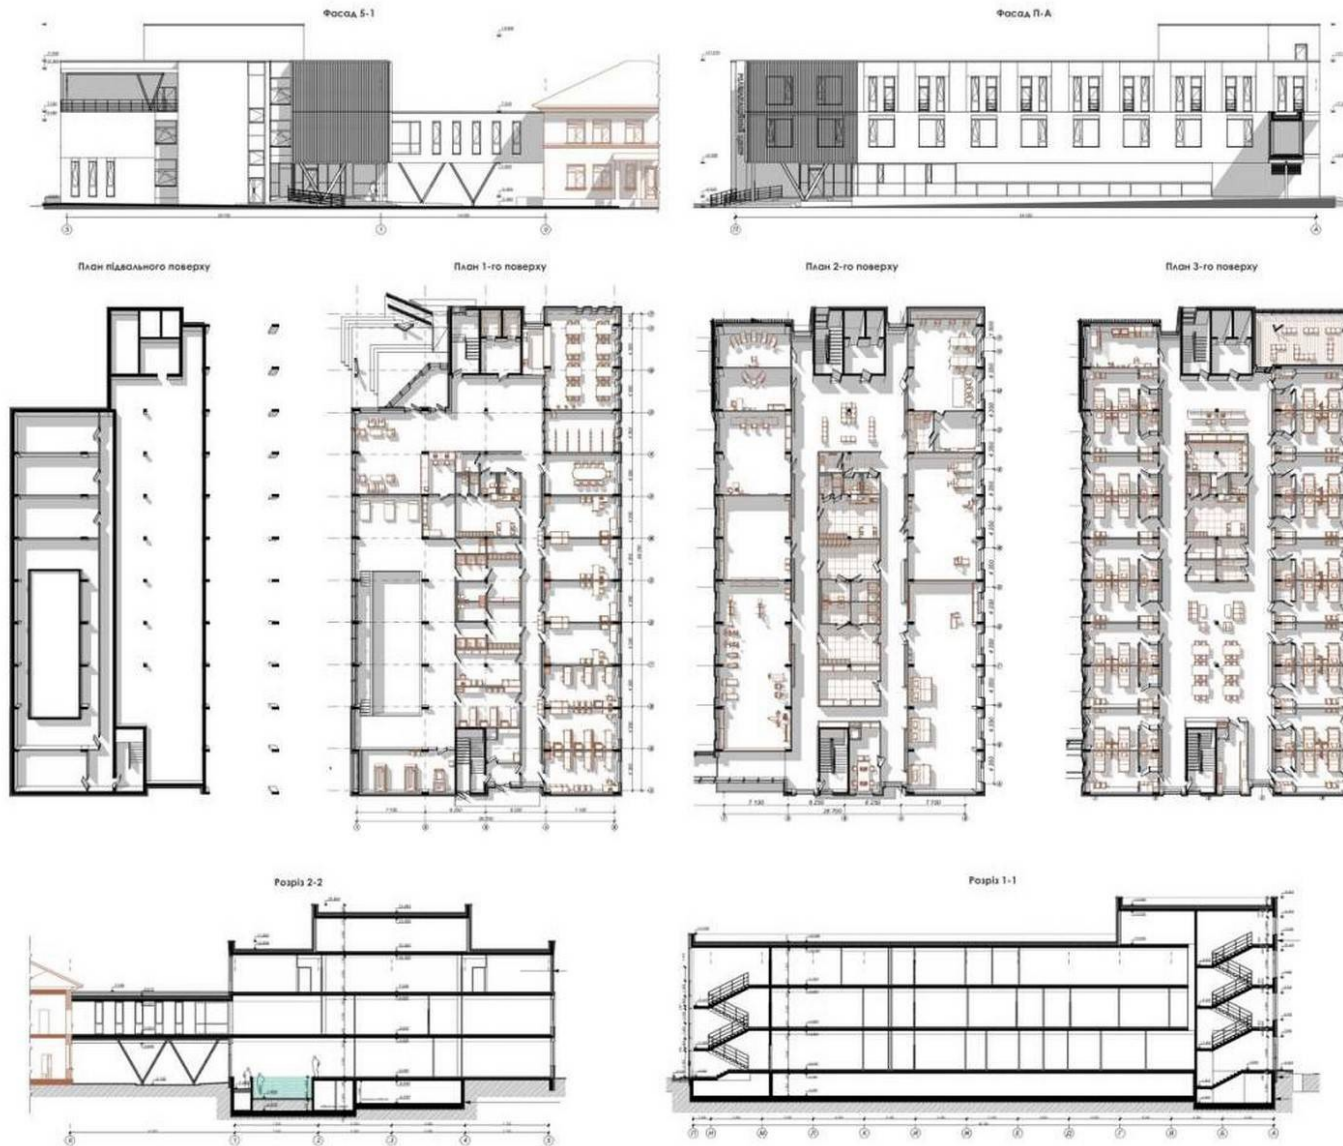

We have ordered renovation and extension construction design works at Hipro-Cyvil-Bud – leading Ukrainina industrial architectural bureau ([www.projects.com.ua/glavnaua](http://www.projects.com.ua/glavnaua))

We also have a Specialist Accessibility consultant on a stand-by to evaluate the project for highest accessibility standards

## Center Proposed External View

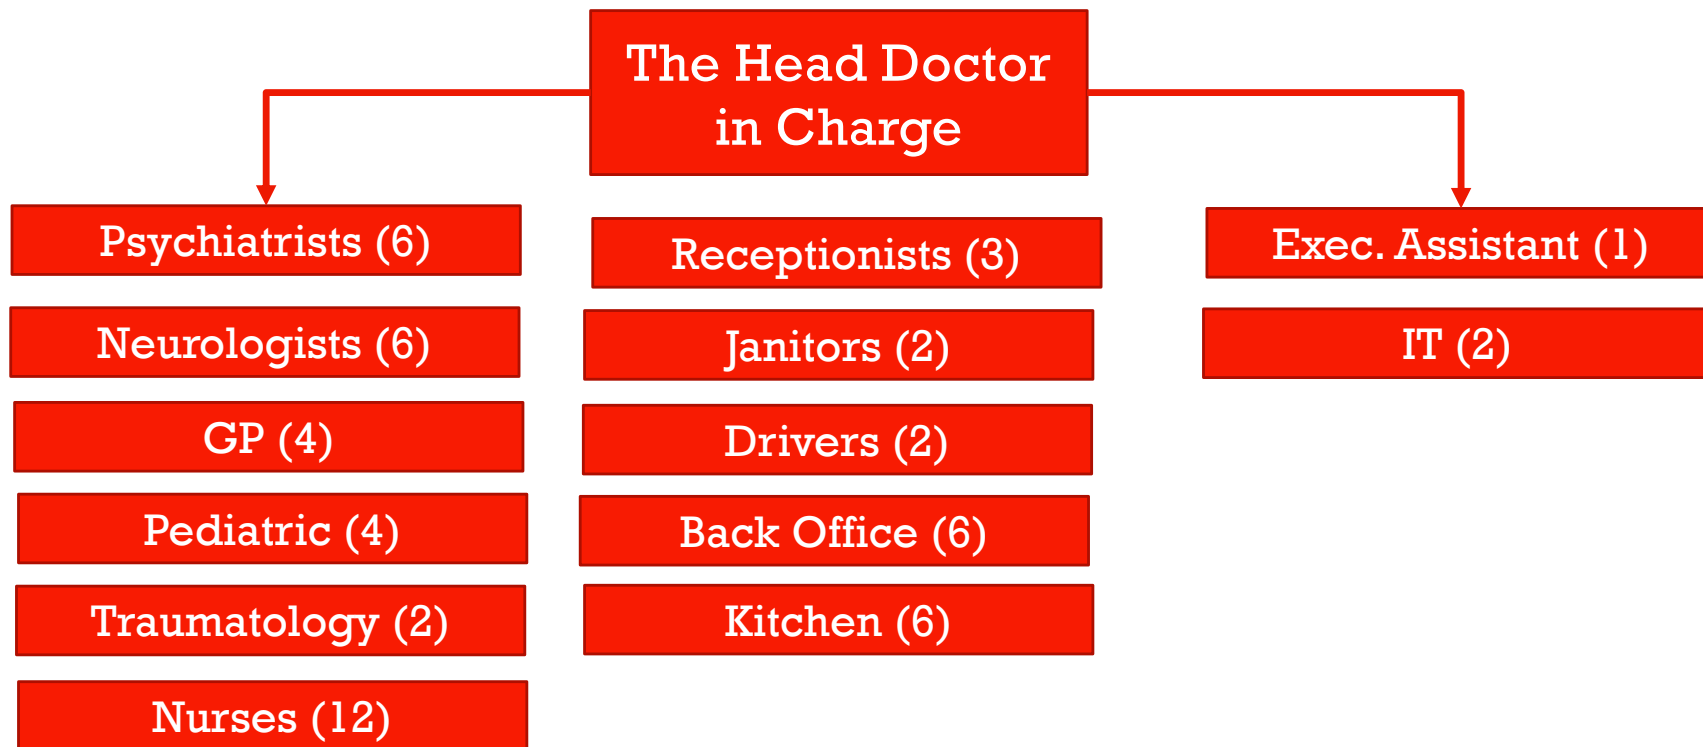

# Center Current Design Drawings

## Staffing plan: doctors / nurses / staff / training\*

\*Training of doctors – we are in discussions with World Jewish Relief NGO, who have necessary expertise and interested in working with us to provide such training

# Six-Month Roadmap

| Projects           | Start-End Data |             | Aug | Sep | Oct | Nov | Dec | Jan |
|--------------------|----------------|-------------|-----|-----|-----|-----|-----|-----|
| Create charity     | Apr 22         | Completed   |     |     |     |     |     |     |
| HMRC registration  | 26 Aug 22      | Completed   |     |     |     |     |     |     |
| Design             | Jul – Sep 22   | In progress |     |     |     |     |     |     |
| Site identified    | Jul 22         | Completed   |     |     |     |     |     |     |
| Fundraising        | Ongoing        | In progress |     |     |     |     |     |     |
| Fundraising        | 2022           | Ongoing     |     |     |     |     |     |     |
| Start construction | Q1 2022        | Target      |     |     |     |     |     |     |

We are looking to fundraise the Preliminary Budget amount to complete the CRC project in 12-18 months. Funds required as per partial design & construction cash calls (not all at once)

- Acquisition land (2 Ha) & building .....\$2,000,000
  - Design.....\$85,000
  - Internal renovation & extension.....\$1,500,000
  - Compliance with rules and regulations ...\$300,000
  - Medical Training & Equipment .....\$5,000,000
- Est. Total.....\$8,885,000

*Please note:*

*--Figures are in USD*

*--Preliminary estimates to be refined during detailed design and acquisition works*
